

## Welding supplies- Electrode Holder 300amp-800amp

WE are engaged in manufacturing and supplying Electrode Holder that is used for holding welding electrode with excellent grip. These electrode holders are available in various specifications and are supplied to various small and large scale industries. We supply these electrode holders in various type include of Japan, Sannitsh, American, Holand, Korean, Italy type at competitive market prices. Specifications:

Materials: Iron, brass+iron, full brass  
Electrode rod sizes: 2.5mm-5.8mm  
Ampere capacity: 300-600 amp  
Weight: 400-600 gram  
Cable sizes: 25mm<sup>2</sup>, 50mm<sup>2</sup>, 70mm<sup>2</sup>, 95mm<sup>2</sup>
