RECIPROCATING PILLOW-TYPE PACKING MACHINES

DWB-500

QUOTATION

Produce name	Model	Unit	Qty	Market Price/FOB	Agent price
RECIPROCATING PILLOW TYPE PACKING MACHINE	DWB-500	Set	1	\$28000	\$23800USD
Servo automatic feeder		Set	1	\$2700USD	\$2500USD

Notice:

1. price item: FOB Shanghai PORT OF CHINA
 2. Payment: 30% deposit by T/T in advance. 70% before shipping.
 3. Delivery time: after received 30% deposit delivery within 30days.
 4. The machine if used on overseas,the price not including install machine fee. If need our technician go to install machine and trading workers, the buyer should pay all fee (round-trip ticket, hotel, food,visa and salary)
 5. Guarantee:12 monthes.
- details about machine please check the files

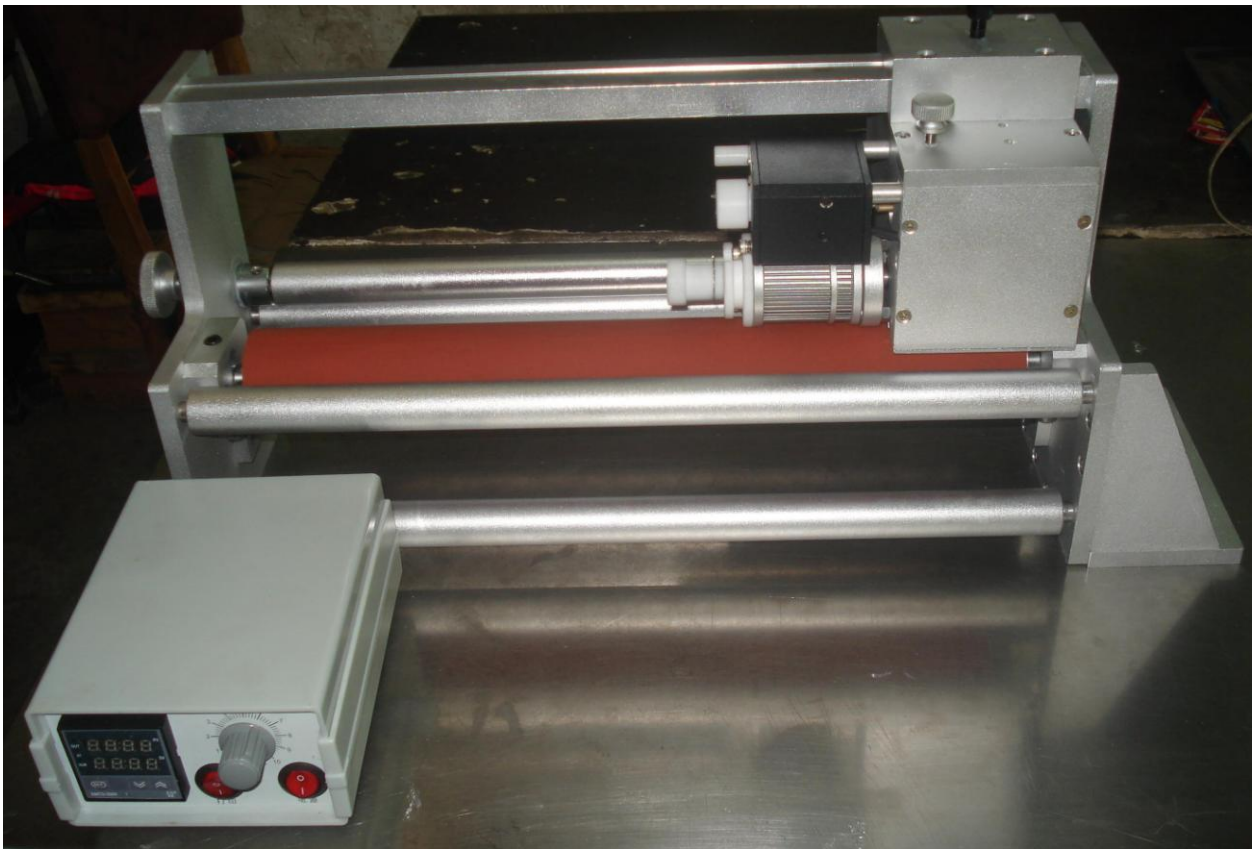

A: Main Technical Parameters and price

Modle	DWB-500
Production Capacity	30-120Bags/min Vary with different specifications
Packing size	L:75-400mm W:30-180mm H:5-60mm
Height for angle fold	20-60mm
width of the film	450mm
Total power	3.5kw
Rated voltage	220v/50Hz
Weight	1000kg
Overall Dimension	L*W*H 3765*1200*1650mm

DWB-500

D:Advantages and features for DWB-500:

- 1:It adopts PLC programmable controller to make running of the whole machine programmed
- 2:AC drive motor with frequency in inverter for stepless control.
- 3:Motorized cut off length set up,quick and fine adjustment.
- 4:PIDcontrol for heater temperature with auto-tuning function.
- 5:Digital display for cut length,speed and pack counter.
- 6:Built-in LEDs for visual error check.
- 7:Precise automatic print registration set up and operation with eye-mark monitoring.
- 8:Automatic product feeder.
- 9:Easy maintenance design for drive components.
