3)Advantages and features:

DXH-200 High-speed Automatic Cartonning Machine belong to the continuity,High speed, incorporated pneumatic-photo-electro-machanic High technology products. The machine suitable for automatic feeding and packing products such as ALU-PVC Blister, bottle,cosmetics, commodity, hardware, card, and some other similar products into the carton, which can automatic finish the leaflet folding, carton opening, feeding, printing lot number, sealing, ect.

The machine adopt PLC control,and the photoelectricity detecting each parts, can automatic show the reason when the machine stoped by abnormity,easy for eliminate the failure. The machine can be used single or joint with pillow-type packing machine or other equipment for a production line.

Features:

Adopt International famous brand of electrical component such as PLC, Frequency inverters, etc.

Adopt Human-machine operation system.

Servo feeding suitable for different specification Alu-pvc blister, Automatically stop when machine is overloaded.

Autoamatically reject lacking of package products and leaflet.
