Highlight

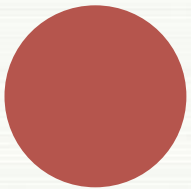

Our company produce and market Android Car DVD from 2013 years. 5 years' high quality pursue wins our company a good reputation all over the world.

Our company are the biggest Rockchip supplier in China, with high quality and very stable system. we have 500models, almost covers all Europe, America, South Korea, Japan car models. Our high efficient purchase department and professional engineer team develop new models very fast.

We use very good spare parts, **Bluetooth**, we have parrot bluetooth(import from France),BC5 bluetooth, BC6.4.0; **Radio IC**, we use 6686S; **Amplifier IC**, we use 7850, 7851; **Screen**, we use IPS.

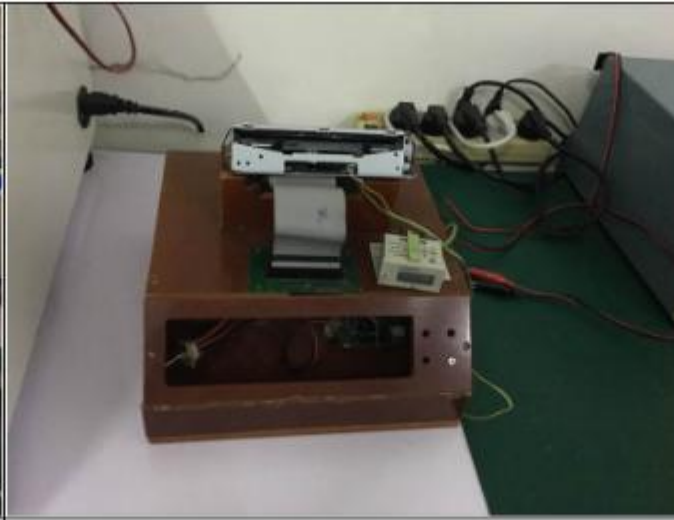

Our Android Car DVD has functions: two way mirror link, ISDB-T, DAB+, voice control from parrot bluetooth, Car Play, TPMS, OBD, DVR etc.

Quality Control

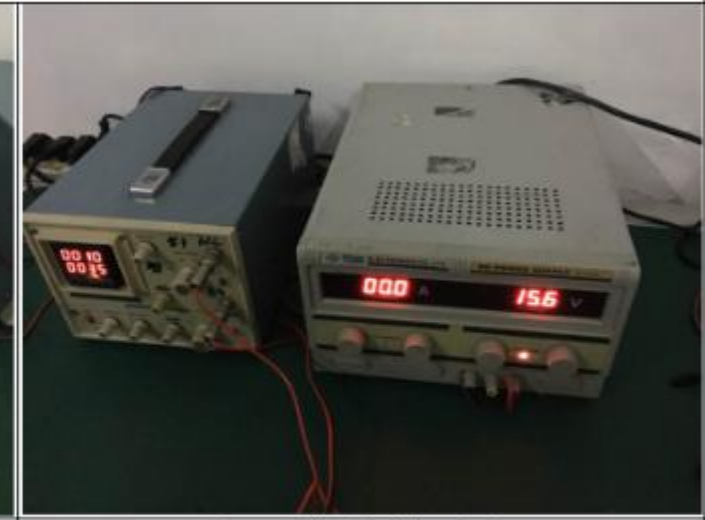

Before we produce, our QC test and check all raw material strictly, from core board, main board, side metal, plastics, to power cables, usb cables, remote control ,color box, cartons, serier numbers etc. In the process of producing, we test all models three times altogether, the first testing, after our staff finish producing the whole unit; the second testing, after our all models aging testing for 8 hours; the third testing, before we make package, we test finally.

Touch screen test

Semi-finished products out of disc test
12000-15000times

Power fluctuation test
Keep Voltage 15.6V,the machine make Android units power turn on and turn off automotively.
The steps repeat again and again.

Quality Control

Micro vibration test
Standard test: 60°, 65°, 70°, 75°
The machine test Android unit spare parts if installed well.

Android units out of disc test
one Android unit test 12000-15000 times

Buttons test
