

## Introduction

CX-S9-D02 is a dusk to dawn sensor AC power sockets, built-in 2 PCS 250V/13A UK sockets .At the backside have a switch (ON/SENSOR), it can realize always on and dawn sensor function.

## Features

- Wide voltage input range: 90-265V
- Working frequency: 47~63HZ
- Water proof level: IP54

## Application

- Outside Fountain
- Outside landscape lamp
- Outside street light

## Drawing

## Parameters

AC Working voltage range	90V~265V
AC Working frequency	47~63HZ
AC Rated output current	10A (2PCS sockets total 10A)
AC Max output current	13A (2PCS sockets total 13A)
Waterproof level	IP54
AC wire diameter	1.5mm <sup>2</sup>
Sockets no-load loss	<2MA
Working temperature	-35°C~+65°C

## Installation

- Carefully unpack contents and check to make sure all parts are present. then put the plastic stake plug into the bottom hole of the sockets.
- Put the AC sockets to the suitable place, stake to ground, then plug in.
- Insert the appliance into the 2 sockets, it can works.

Note: 1.When you slide the backside switch to “ON”, the 2 sockets always have AC output.

2. When you slide the backside switch to “SENSOR” , the sockets turn on dawn sensor function ,while at dusk the AC output will active, at dawn the sockets have no AC output.

## Attention

- This product water proof level is IP54, just can prevent splash water, can't prevent big water, so please installation it to the suitable place to avoid the rain.
- This product built-in 2 UK sockets, if you only use one socket the rated current can reach to 10A,max current to 13A,but can't loading 13A appliance in long time to avoid to burn the socket and inside circuit.
- If use 2 sockets at the same time, the max current can't exceed to 13A.
