

吸塑包装机系列

Blister Packing Machine Series

CH-3180

CH-5120

| 型号 Model | CH-3180 | CH-5120 | CH-12 |
|---------------------|-----------------|------------------|-----------------|
| 电压 Voltage | 220V 3P 50/60Hz | 220V 3P 50/60Hz | 220V 3P 50/60Hz |
| 功率 Power | 1500W | 2500W | 4500W |
| 包装尺寸 Packing Size | 310*510MM | 510*760MM | 380*680MM |
| 工位 Working Station | 3 Stations | 2 Stations | 12 Stations |
| 包装速度 Packing Speed | 6-15Times/Min | 6-15Times/Min | 6-15Times/Min |
| 机器尺寸 Machine Size | | 1220*1440*1450MM | 3200*840*1500MM |
| 机器重量 Machine Weight | 100KG | 150KG | 900KG |

CH-12

本机特点：

使用可调节电发热原理完成 PVC、PE、PP 等塑料吸塑成型片材料与底板对合，操作简易、方便、效率高。

适用范围：

适用于各种精美玩具、文具、日用品、小型工具的吸塑封口包装令您的产品包装得晶莹通透美观挺括，增加吸引力。

Machine Feature:

Easy to operate, only need to choose the prolong time, heating time, cooling time and transform the grade of heating current, rotate the working plate with hand, then the prolong time system, heating system and cooling system will be automatically working.

Application:

Blister sealing machine is widely used in blister-carton package for hardware, cosmetics, toys, stationeries, batteries, art wares, car accessories, electrical components and souvenir etc.
