

BFT-AD High Temperature Fireproof Basalt Fiber Braided Belt

Product introduction:

BFT-AD Fireproofing Basalt Fiber Belt, woven by high quality basalt fiber which have been processed and surface-treated, is also known as 'new materials in 21th century'.

Product Feature:

- 1, Good resistance performance to high and low temperature.
- 2, Anti-acid and alkali, anti-corrosion
- 3, low gygrosopicity, good insulation performance.
- 4, excellent high temperature filterability, anti-radiation

Product Application:

Aviation, specefight, minitary industries, high speed rail, etc.

Product Dimension:

PART NO.	Width (mm)	Thickness (mm)	Length (m/roll)
BFT-AD-25	25	2.3	10-30
BFT-AD-50	50	2.3	10-30
BFT-AD-75	75	2.3	10-30
BFT-AD-100	100	2.3	10-30
