

## ZSC Self-coiling Wrap Around Slit Braided Sleeving

### Description

ZSC self-coiling wrap around slit braided sleeving is a new kind wire protection sleeve, braided by polyester monofilament and polyester multifilament.

It has good heat dispersion performance, fireproofing, Abrasion resistance, easy to operate, Open structure is good for wire harness to install, maintain and repair.

### Product application

It has been widely use in high-speed rail, automobile, automation equipment, company wire materials, especially suitable for the environment which need protection and heat dissipation.

## Technical parameters:

- 1, Material quality: polyester monofilament + polyester multifilament
- 2, Working temperature: - 50 °C to 150 °C
- 3, Melting point: 240 + 10 °C
- 4, Level of flame retardant: UL94 V2
- 5, Standard color: black
- 6, Certification: ROHS, satisfy the halogen free certification
- 7, Cutting tools: keen knife

## Product drawing

## Product dimension

| Part NO. | ID (MM) | Coincidence rate (%) | Max.wire harness diameter(MM) | Packaging (m/roll) |
|----------|---------|----------------------|-------------------------------|--------------------|
| ZSC -009 | 6       | 25 %                 | 7                             | 100                |
| ZSC -009 | 9       |                      | 10                            | 100                |
| ZSC -013 | 13      |                      | 14                            | 50                 |
| ZSC -016 | 16      |                      | 17                            | 50                 |
| ZSC -019 | 19      |                      | 20                            | 25                 |
| ZSC -025 | 25      |                      | 26                            | 25                 |
| ZSC -032 | 32      |                      | 33                            | 25                 |
| ZSC -038 | 38      |                      | 40                            | 25                 |
| ZSC -050 | 50      |                      | 52                            | 25                 |

### Remark:

- 1, inner diameter is the diameter when the sleeving is roundness, not the lay plat width.
- 2, special packaging, special color, etc, can be customized according to customer's requirements.
- 3, product detail parameters, please refer to our approval sample sheet.
