Galvanized Cattle and Horse Fence Panel

Horse fence panel is usually called **galvanized cattle fence**, **galvanized livestock fence**, **galvanized metal horse fence**, **steel security fence** etc.

Horse fence is available galvanized or powder coated in a wide variety of lightweight to heavy duty options for use with horses or cattle. Panels vary significantly in construction and durability, so choosing the correct panel should be based on your individual needs, temperament of your animals, space requirements, budget, safety considerations, portability needs, etc. Portable panels allow for relocation of sacrifice areas, re-design of crowding areas, temporary round pen or stall set-up, etc. We offer a wide variety of panels for both horses and cattle to meet your livestock needs

1. Material of horse cow sheep farm fence panels:

Hot dipped galvanized pipe, including: round pipe, Oval pipe, Square pipe.

2. Process:

Firstly ,we prepared the pipe ,then put the pipe on the welded shaping machine,the pipes are galvanized,welded the pipe together,then make the spot smoothing, then silver painted.

3. Feature of horse farm panels:

It is simple in structure; Easy maintenance;Short installation period; Less weight; Easy for transport; Good ventilation.

4. Advantages of our horse farm panels:

A Farm fence can stand against fierce striking of cattle, horse, goats, sheep

B Durable, Lifetime can reach to twenty years. Easy maintenance

C Farm fence is light, Easy to transport and install, Ventilates diaphanous

D Knotted wire mesh offers high strength and tensile strength

E Good pressure resistance, Corrosion resistance and weather resistance

F Anti-oxidizing property

Material	Hot dipped galvanized steel pipe
Size (H*L)	1.8*2.1 m;1.8*2.9 m
Horizontal Pipe	Three types(round, square, oval) 1) round pipe:32*1.6 mm;40*1.6 mm,42*1.6 mm 2) square pipe:40*40*1.6 mm;50*50*1.6 mm 3) oval pipe:30*60*1.6 mm;40*80*1.6 mm
Structural Style	One set=one net + two pins
Bars/Rails	1.8 m high with 6 bars/rails or 1.6 m high with 5 bars/rails
Applications	Used in protecting of animals
Main Markets	USA,Australia,New Zealand,Canada,US,European countries and Asia countries
Surface treatment	Anti-rust paint + silver painted, Hot dipped galvanized
