

# Horizontal Video Measuring System

## 10. JTVC series Video Measuring Machine&System

### FEATURES

1. This machine with dual-use selection: mouse and keyboard operation and screen touch operation. Can measure sample board, Stamping, Cam, parts and so on. it is convenient for the user to do the test and see the outcome at same time.
2. Mainly applied in machinery, instrument, electronic, hardware, molding and so on.

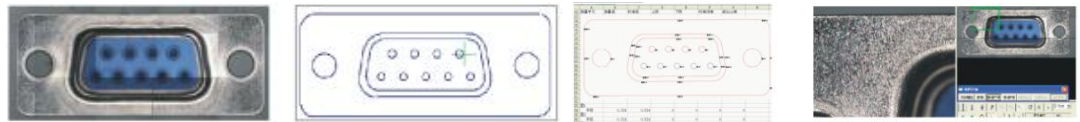

**Model: JTVC-2515(VTC2515)**

### Specification:

Model		JTVC-2515(VTC2515)
Staging	Metal Stage Size(mm)	408X308
	Glass Stage Size(mm)	305.6X197.5
	Travel Stage Size(mm)	250X150X200
	Dimension(L*W*H)(mm)	766X653X1760
	Moving range	±15° ( roating with Y-axis )
	Power	110v/220v(AC),50/60HZ.
Measuring System	Obejective lens focal length (mm)	Almost 92mm
	Resolution(mm)	0.0005
	Accuracy(μm)	≤(3+L/200)
	Standard automatic measurement software, can automatically find edge, deburring measurement, can be put and point, line, circle, angle, center distance and so on.	
Video System	1/3" Color CCD Camera,0.7~4.5 Zoom Lens,Video Total Magnificaiton:30X~230X	
	LED adjustable Light Source	

### Application:

### Accessories

Zoom lens	0.7~4.5X				
Extra lens	Screen magnification	Physical field of view(mm)	Screen magnification	Physical field of view(mm)	Working distance(mm)
0.5X(optional)	15X~95X	20~3.2	7.5X~48X	40~6.4	175
1X Stanard	30X~190X	10~1.6	15X~96X	20~3.2	96
2X(optional)	60X~380X	5~0.8	30X~190X	10.6~1.6	32
