

# **<u>Double Sided Printed Circuit Boards</u>**

#### Double Sided Printed Circuit Boards (also known as Double-Sided Plated

Thru or DSPT) circuits are the gateway to higher technology applications. They allow for closer (and perhaps more) routing traces by alternating between a top and bottom layer using vias. Today, double sided printed circuit board technology is perhaps the most popular type of PCB in the industry.

#### **Benefits of Double Sided PCBs:**

- More flexibility for designers
- Increased circuit density
- Relatively lower costs
- Intermediate level of circuit complexity
- Reduced board size (which can reduce costs)

## **Applications of Double Sided PCBs**

There are near limitless applications for old and new designs. Fine line surface mount, ultra high copper build, high and low temperature, Solder coated, Silver, and Gold finishes are just a few examples of DSPT applications.

THE FOLLOWING ARE APPLICATIONS IN WHICH DOUBLE SIDED PCBS CAN BE USED:

- Industrial controls
- Power supplies
- Converters
- Control relays
- Instrumentation
- Regulators
- UPS systems
- Power conversion
- HVAC
- LED lighting
- Hard drives
- Printers
- Phone systems

- Power monitoring
- Automotive dashboards
- Line reactors
- Test equipment
- Amplifiers
- Traffic systems
- Vending machines

## JINGHONGYI PCB (HK) CO., LIMITED

Professional Quick Turn Prototypes Small-medium Volume PCB Manufacturer

### **Product&Service**

- Quick Turn PCB
- Rigid PCB
- Flexible PCB
- Rigid-flex PCB
- Aluminum PCB
- PCB Stencil

## **Factory Tour**

### Why choose us?

- Save money&time! Achieve peace of mind!
- A professional and trustworthy PCB prototype manufacturer.
- Fastest PCB Prototype.
- One stop solution for various PCB&SMT Stencil.
- Low cost for simple PCB.
- Affordable price for high-tech PCB.
- Minimum orders 1pcs.
- 24-hour online customer service.
- Professional PCB engineer for one-to-one service.
- Shipment on time.
- Guarantee good service and quality from PCB quotation to delivery.

#### Service features

- · Custom service.
- You get what you pay for!
- 7\*24 hours Online service.
- Professional Technical support.
- Fast turnarounds.
- Fast delivery.

## Certification(UL:E466618, TS16949, ISO9001.RoHS)

#### **Electronics Fair**

We took part in the famous exhibitions (As a PCB manufacturer) over the past years and got high appreciation from the top experts and customers, as well as cooperated tightly with them.

JHY PCB offers flexible shipping methods for our customers, you may choose from one of the methods below.

#### **Shipping Process**

After production and testing, your PCB orders will be sent to our shipping department. As the quick turn PCB manufacturer, JHY PCB shipping department will ship your PCB quickly without any pending.

### **JHY PCB** 's Packing Way

- Use one professional PCB vacuum bag, with desiccant inside. Vacuum compressed totally.
- Paste label and RoHs mark. Use second vacuum bag to protect boards again, vacuum compressed, make sure no exception.
- Microsection report and Tin testing board are put together with PCB in cartons.COC (Certificate of Conformity) will be sent to customer by email in PDF.
- Several layers of thick EPE(Expandable polyethylene) are filled fully in gaps between PCBs and cartons. The thickness of 1 layer EPE is 10mm.
- Neutral Packing is adopted if no special requirements. Strong and thick cartons(Thickness:10mm,7 layers). Different sizes of cartons are designed to meet demand of different PCB size. All package are within weight limit of cartons. For mass production order, no exceed 21kg per carton normally.
- All cartons sealed with strong adhesive tape should be sealed twice so as to make them more durable.
- Solid PP/PET strapping is used outside of cartons.
- Shipping mark, fragile mark and postcode label are all pasted clearly.

Whatever we do or whatever we think of is to make sure boards are shipped to customer safely and quickly.

#### **How to ship your PCB?**

- Firstly, JHY PCB shipping department will print order address and invoice.
- Secondly, JHY PCB will set the shipment information on the Logistics company website.
- Thirdly, the Logistics company staff will collect the package from JHY PCB and ship it to you.

#### **Shipment Term**

With the purpose of better customer service and meeting the customer demand, JHY PCB provides following shipping methods.

JHY PCB is experienced in exporting. For PCB Prototype and small-medium volume PCB order, we have stable and long-term good relationship with forwarder, such as international express company DHL, FedEx, TNT, UPS. For mass production order, we have famous and reliable shipping company for support.

### **FAQ**

#### Q1: What is your minimum order quantity?

A: Our MOQ is 1 PCS.

#### Q2: Do you accept PCB design with different boards on one panel?

A: Of course, we can do different boards on the same panel.

#### Q3. Are my Gerber Files safe?

A: We protect the intellectual property for customers in the whole process. All documents from customers are never shared with any third parties.

#### Q4: What is needed for quotation?

A: Quantity, PCB Gerber file, Technical requirements(material, board thickness, surface finish, copper thickness, solder mask color, silkscreen color,...)

#### Q5. How to quote shipping cost?

A: The shipping cost is determined by the shipment way(forwarder name, delivery days), destination, weight&dimension of packages. If you use your own forwarder, please inform us.
