

Video Measuring System

4. One Key IM series Video Measuring Machine

FEATURES

1. Quick measuring, high efficiency, just 2seconds to do the batch test and measuring for all dimensions after meet the requirements from customers.
2. Easy operating, and output the measuring data very quickly as Word and Excel file.
3. Large diameter double telecentric lens to do the full view measuring with Five million pixels of the German camera
4. No need any fixture and no need the platform to Positioning, The product is placed without constraints
5. Widely used in PCB, flat glass, LCD molding, CCL and so on.

Model: IM-4055/IM30/IM60/IM100/IM150

Specification:

model	IM30	IM60	IM100	IM150	IM-4055
Measuring range	44mm*33mm	88mm*66mm	96mm*72mm	142mm*96mm	62mm*42mm
Instrument Dimensions(mm)	320*240*630(mm)	400*300*785(mm)	500*500*1000(mm)	460*620*1440(mm)	550*400*895(mm)
Camera	Daheng 2/3 " 5 mega-pixel CCD		Vision 2/3" 5 mega-pixel CCD	Vision 2/3" 5 mega-pixel CCD	Imaging 1/2.5" 5 mega-pixel CCD
Lens	0.2X-0.088X		0.093X	0.061X	0.138X
Measurement Accuracy	0.01MM				
Max working height	15mm-26mm		200mm	200mm	200mm
Light source	Telecentric light source + programmable surface light source				
APPLICATION	vision system & non-contact measurement&Auto inspection &identity Plastic/Glass/Hardware/Electronic(PLC/LCD)/Medical/Aeromagnetic other parts and components...
