

Specification of Liquid Potassium Fertilizer

Item: Liquid Potassium Fertilizer

Product Description

This product is a type of high concentrated potassium refined by the world's leading technology. Potassium is organic state & contains high efficient active agent. It can increase the absorption rate of potassium & effectively treats green leaf yellowing, leaf curling, slow growing, falling flowers & fruits, poor quality, premature aging etc. caused by potassium deficiency, at the same time, it can improve the quality, expand the fruits & increase production.

Product Features

High potassium content: $K \geq 580g/L$

Excellent water solubility: Dissolves quickly in cold water with any volume for deployment.

High absorption efficiency: Active agent contained, absorption and utilization rate $\geq 90\%$.

Easily mixed and used: Neutral PH, available to mix with most pesticides & foliar-fertilizer.

Precautions

This product should be stored in a cool & dry place. Spraying should be carried out before 9:00 a.m. or after 4:00 p.m. & respray if it rains within 4 hours after spraying.

Applicable Crops

Fruit trees, vegetables, field crops, economic crops, Chinese herbs, flowers etc.

Leaf Application

Water diluted 1500-2000 times for sprinkler irrigation or spraying (that's 10ml per 15-20kg of water). spraying on the crop leaves top & back evenly.

Root Application

Water diluted 1000-2000 times for drip irrigation, watering or infiltration irrigation, that's 10ml per 10-20kg of water, apply or spray near to the crop roots.

Production Date: Seeing the seal or coding

Shelf life: 3 years
