# About US

Trumony Aluminum Ltd, founded in 2006, is a leading supplier of critical heat transfer material for automobile and industrial cooling sectors. Using advanced equipment and technology, Trumony Aluminum Ltd provides products cover 1,3,4,5,6,7 and 8 series aluminum alloy, brazing aluminum fins, steel/aluminum cladded tubes, high frequency welded tubes and headers and so on many varieties, many specifications of the product series.

Trumony specialized in heat transfer field. Taking heat transfer as core business, Trumony covers full range of products in Industrial cooling and automobile industry. With our strong supplier ability and sales support, Trumony became the leading manufacturer and global supplier of heat transfer material for cooling towers, air cooled condensers and various other heat exchangers, such as radiators, condensers, evaporators. Our high quality equipment based on advanced technology produces aluminum fin stocks, all kinds of high frequency welded tubes and headers, enabling us to take good care of our clients' material needs. Facing the heat transfer field, Trumony is ambitious to provide its reliable, and cost efficient material solutions worldwide.

# Range of Products

Aluminum fin materials	Alloy 3003, 4047, 4343, 3003 clad with 4343, 3003 clad with 4343 / 7072
	Temper: H14, H24, H16 etc.
	Thickness: 0.06mm, 0.08mm, 0.12mm, 0.25mm, etc.
	ID: 300mm, 500mm ; OD: 1800mm max.
High frequency welded tubes	Material: stainless steel, carbon steel, aluminum
	Type: bare; cladded (steel clad aluminum)
	Dimension: 219 x 19 x Length (mm)
	Wall thickness: 1.5mm
Steel Clad Aluminum Strip	Matarial: staiplass staal aarban staal aluminum
	Material: stainless steel, carbon steel, aluminum Thickness: 1.5mm (steel + aluminum)
	Width: 460mm
	ID: 500mm; OD 1700mm
CAC Tube / Oil Cooler Tube	Material: 4343/3003/4343; 4343/3005/4343
	Material Thickness: 0.22-0.5mm
Mater Cecler Diete	
Water Cooler Plate	Material: aluminum
	specification: as request, design service avaliable
	application: new energy vehicle battery heat exchange

## Equipment List

生产机器名称	Equipment	Quantity
4辊可逆热轧机	Four rollers reversible hot rolling mill	1
4辊 <mark>不可逆冷轧机</mark>	Four rollers irreversible Cold rolling mill	4
电加热均匀化炉	Electrical heating homogenization furnace	1
燃气垂直推动铝锭加热炉	Gas-fired vertical pushing aluminum ingot heating furnace	1
氮气保护铝卷退火炉	Nitrogen protective aluminum coil annealing furnace	3
铝卷退火炉	Aluminum coil annealing furnace	5
精密分切机	Precision slitting machine	4
拉弯矫直机	tension leveling machine	2
X光测厚仪	X-ray thickness gauge	4
板型仪	Shape meter	2
铣床	Surface milling line	1
焊接机	Welding unit	1
倾斜熔炼炉	Tilting melting furnace	2
横向剪切	Horizontal shearing set	1
纵向剪切	Longitudinal shearing set	1
倒卷切边机	Recoiling & edge cutting line	1

#### Equipments for aluminum

#### Equipments for steel-alu cladding material

生产机器名称	Equipment	Quantity
四辊复合冷轧机组	4 rollers cladding rolling mill	2
平整机	Shaping line	1
罩式退火炉	Covering annealing furnace	8
纵剪机组	Longitudinal shearing set	1
双梁桥式起重机	Crane lifting line	2
打包机	Packing line	1
拉力试验机	Tensile testing machine	1
箱式气氛炉	High temperature testing furnace	1

#### Equipments for welded tubes

生产机器名称	Equipment	Quantity
开卷机	Uncoil machine	1
剪切机	Cutting machine	1
对焊平台	Welding platform	1
氩弧焊机	Brazing welding machine	1
定径仪器	Diameter measuring set	1
固态高频感应焊机	Solid high frequency welding machine	1
智能涡流探伤仪	Auto eddy current testing machine	1
电弧喷涂设备	Arc spray unit	1
毛刺缠绕机	Edge collecting machine	1
交流电焊机	Alternating current welding machine	1
型材切割机	Profile cutting machine	1
水压测试单元	Under water testing unit	1
